

PAWZ FOR THOUGHT.....

March - 2013

PLUSH PAWZ DOG HEALTH AND GROOMING

Mud and rain getting you down? Spring seem a long time off and dog grooming little more than a daily hose down?

Welcome to our March newsletter, where we hope we can help you in the fight against mud and get your dog back in tip top condition for spring! The problem many of us have faced this winter is how on earth to keep on top of the daily mud and tangles, whilst being sure we're not neglecting, or worse still damaging our dog's coat and wellbeing.

So to help get you and your dog back on track, here's our list of the 3 most important things to keep an eye on and a reminder of some of the great offers we've got coming up to help put the fun back into dog walking.

Best paw forward!

When did you last check your dog's feet? Have they got cracked or sore pads? Do their nails need clipping and are you sure the fur on their feet isn't matted or causing discomfort? Plush Pawz can check and treat all these issues and advise you how to prevent further problems.

Making a splash!

Do you hose down your dog after a muddy walk and grab the nearest soap you can find? Did you know that too much washing and normal shampoos are not good for your dog's coat or skin? Plush Pawz can advise you on a good routine and a range of natural shampoos, specially formulated for dogs, which also don't cost the earth.

Up to scratch!

Does your dog scratch, bite, lick itself or have scurfy skin and you don't know why? There are a number of reasons why dogs will scratch and the good news is most of them are easy to treat. Don't let them suffer, we can help you identify the problem and work with you to make your dog more comfortable. Call Lesley today for your **FREE** consultation.

Food for thought!

Normal brands of dog foods can be very expensive and deceptively bad for your dog. You may have heard of our Pawzdelicious range of delicious, home baked, natural dog treats but did you know we can also advise and supply your dog with good quality meat. It's not only cheaper than most brands but also offers a much healthier, balanced diet and is kinder to your dog's teeth too.

PP Tip of the Month

Be sure to keep your Easter Eggs out of reach of your dog. Chocolate is **toxic** to dogs - why not treat them to their own natural treats !

Prize Draw - Liver Fudge *'The Original'*

Don't forget to enter our Prize Draw for your chance to win a 'slab' of our Pawzdelicious Liver Fudge - www.plushpawz.co.uk

Pawz Pointz!

Dogs and owners are equally important to us and we believe in rewarding loyalty. For every friend you successfully refer and each groom your dog has, we'll give you a credit worth £2.50 to use in our shop or collect to put towards future treatments - and we always make sure your dog goes home with some of our home baked, natural treats.

This Month's Diary !

FREE Bag of Pawzdelicious Fruit Cookies with every groom during March
